DESCRIPTION

The Alien case is the first ATX 2.0 case from Gammec.
The Alien was built in 0.70mm metal with the aim of having easy assembly of the internal components, great cleaning and order inside the case. For this purpose, a metal structure has been built inside that contains and isolates the power supply and the peripherals from the boards that have more space (up to 420mm) and are protected.
Worthy of note is the cage for LiquidCooler already integrated into the structure. Complete the CardReader and USB 3.0 configuration, all wrapped in a very aggressive front and top mask.

COLOR	Black
INTERNAL PAINTING	Black
METAL THICKNESS	0.70mm
NET WEIGHT	6.0kg
STRUCTURE DIMENSION	200x445x430mm
CASE DIMENSION	214x480x540mm
INTERNAL BAYS FOR DRIVES	1x5.25 "+ 2x3.5" /2.5 "+ 2x2.5"
