CASE ATX ALANTIK CASA73 WITH PSU

DESCRIPTION

The CASA73 case is an ATX MiddleTower case that comes with an Alantik 500watt power supply with a 12cm fan and a SHUKO power cord.

The front is particular, the controls and outputs are all placed in the front in the upper position and can be mounted frontally 2 fans of 12 cm.

The interior of the case is painted in black.

Despite the particularly complex and captivating front, the CASA73 maintains a competitive price compared to the low-cost office use, thus making this product very appealing, especially in home use where, in the configuration of adequate power, it can also be used for gaming (especially in the version CASA77 with deeper structure and 2 x 3.0USB + 2 x 2.0USB equipment).
