DESCRIPTION

The GT15 is the first Cortek tower house.
The GT15 is a case with high-level features.
the GT15 was built with the aim of having easy assembly of the internal components and great cleaning and order inside the case. For this purpose, a metal structure has been built inside that contains and isolates the power supply and the peripherals from the boards that have more space (up to 400mm real) and are protected.
In addition, the GT15 is made of 0.70mm metal and equipped with CardReader, two 14cm frontal fans and two 12cm superior fans, all with green light.
